Pastor’s Corner:

Almost all devices need a password these days which is a huge headache for me. So, think about this for a bit. What is the most popular password? It’s said that on average, the human brain can hold only about five to nine "random bits of information" in short-term memory. Therefore, it's no surprise to find that the most common password used is simply the word, “password.” As we enter the month of November many are randomly turning to thoughts of the Thanksgiving Holiday. In this time most Christians automatically recall familiar verses hidden in our hearts, such as “*Enter into His gates with thanksgiving and into His courts with praise.*” Therefore, it should be a no-brainer for the first words that come out of our mouths as we enter the Thanksgiving season to be simply, “thank-you Jesus.” We should be most thankful for the privilege we have to place our faith in Jesus Christ and enter into His presence. Because of Christ, the veil was torn. We can enter into the Holy presence of God without hesitation. Jesus cleared the way for us by His blood. As we enter this season of thankfulness, before we randomly start planning bits and pieces of holiday celebrations, we should simply thank Jesus for the access He provided to each of us. He gave His life so that we may enter into His joy and salvation! *Enter this season with the password: "Thank you Jesus!" Thank Him and Worship Him. Psalm 100:4*

Blessings, Pastor Vernon
